

# SAFETY DATA SHEET

Concrete Sealer Dustproofers

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** : Concrete Sealer Dustproofers  
**Product description** : Coating.  
**Product type** : Liquid.  
**UFI** : 8R50-S0WA-J00C-QG8V  
**Product code** : FLS0018

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses                        |        |
|----------------------------------------|--------|
| Consumer<br>Industrial<br>Professional |        |
| Uses advised against                   | Reason |
| None identified.                       | -      |

### 1.3 Details of the supplier of the safety data sheet

Floorsaver Ltd,  
Eastgate Court  
195-205 High Street  
Guildford  
Surrey  
GU1 3EH  
United Kingdom  
Telephone no: 0345 4509888  
Email: info@floorsaver.co.uk

Floorsaver  
Kränkelsweg 14  
41748 Viersen  
Deutschland  
Telephone no.: 02162-5746666  
info@floorsaver.de

**e-mail address of person responsible for this SDS** : rpmeurohas@rustoleum.eu

### 1.4 Emergency telephone number

#### National advisory body/Poison Centre

Telephone number Ireland : 809 2166  
Available 8am to 10pm 7 days per week

#### Supplier

Telephone number Ireland : +353 19014670  
Hours of operation : 24 / 7

Concrete Sealer Dustproofers

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture  
Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Not classified.  
The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.  
See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Signal word : No signal word.  
Hazard statements : No known significant effects or critical hazards.  
Precautionary statements  
General : P103 - Read carefully and follow all instructions.  
P102 - Keep out of reach of children.  
P101 - If medical advice is needed, have product container or label at hand.  
Prevention : P280 - Wear protective gloves.  
Response : Not applicable.  
Storage : Not applicable.  
Disposal : P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.  
Supplemental label elements : EUH208 - Contains 1,2-benzisothiazol-3(2H)-one (BIT). May produce an allergic reaction.  
EUH210 - Safety data sheet available on request.  
Supplemental label elements : Detergents - Regulation (EC) No 907/2006 : Not applicable.  
EU Biocidal Products Regulation (BPR), Article 58(3) Statement : Contains a biocidal product (in-can preservative):(BIT)  
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles : Not applicable.  
Special packaging requirements  
Containers to be fitted with child-resistant fastenings : Not applicable.  
Tactile warning of danger : Not applicable.

2.3 Other hazards

Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII  
This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Product meets the criteria for endocrine disrupting properties according to Regulation (EC) No. 1907/2006. : Not applicable

Concrete Sealer Dustproofers

SECTION 2: Hazards identification

Other hazards which do not result in classification : None known.

SECTION 3: Composition/information on ingredients

3.2 Mixtures : Mixture  
Ireland

| Product/ingredient name          | Identifiers                                                                            | %    | Classification                                                                                                                                                                                                                             | Specific Conc. Limits, M-factors and ATEs                                                                                                      | Type |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

[1] Substance classified with a health or environmental hazard

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

- Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- Ingestion : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

4.2 Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms

- Eye contact : No specific data.
- Inhalation : No specific data.
- Skin contact : No specific data.
- Ingestion : No specific data.

4.3 Indication of any immediate medical attention and special treatment needed

Concrete Sealer Dustproofers

## SECTION 4: First aid measures

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.

### 5.2 Special hazards arising from the substance or mixture

- Hazards from the substance or mixture** : In a fire or if heated, a pressure increase will occur and the container may burst.
- Hazardous combustion products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide

### 5.3 Advice for firefighters

- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
- Additional information** : No unusual hazard if involved in a fire.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

### 6.2 Environmental precautions

- : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### 6.3 Methods and material for containment and cleaning up

- Small spill** :  Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Dispose of via a licensed waste disposal contractor. Contain and collect spillage with non-combustible, absorbent material e. g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

Concrete Sealer Dustproofers

SECTION 6: Accidental release measures

6.4 Reference to other sections : See Section 1 for emergency contact information.  
See Section 8 for information on appropriate personal protective equipment.  
See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance.

7.1 Precautions for safe handling

Protective measures : Put on appropriate personal protective equipment (see Section 8).  
Advice on general occupational hygiene : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations : Not available.  
Industrial sector specific solutions : Not available.

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits / Biological exposure indices

No exposure limit value known.

No exposure indices known.

Recommended monitoring procedures : Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

DNELs/DMELs

Concrete Sealer Dustproofers

## SECTION 8: Exposure controls/personal protection

| Product/ingredient name            | Result                                                    | Value                  | Effects                     |
|------------------------------------|-----------------------------------------------------------|------------------------|-----------------------------|
| 1,2-benzisothiazol-3(2H)-one (BIT) | <b>DNEL - Workers - Long term - Inhalation</b>            | 6,81 mg/m <sup>3</sup> | <u>Effects:</u><br>Systemic |
|                                    | <b>DNEL - General population - Long term - Inhalation</b> | 1,2 mg/m <sup>3</sup>  | <u>Effects:</u><br>Systemic |
|                                    | <b>DNEL - Workers - Long term - Dermal</b>                | 0,966 mg/kg bw/day     | <u>Effects:</u><br>Systemic |
|                                    | <b>DNEL - General population - Long term - Dermal</b>     | 0,345 mg/kg bw/day     | <u>Effects:</u><br>Systemic |

### PNECs

| Product/ingredient name            | Result                        | Value             | Remarks |
|------------------------------------|-------------------------------|-------------------|---------|
| 1,2-benzisothiazol-3(2H)-one (BIT) | <b>Fresh water</b>            | 0,00403 mg/l      | -       |
|                                    | <b>Marine water</b>           | 0,000403 mg/l     | -       |
|                                    | <b>Sewage Treatment Plant</b> | 1,03 mg/l         | -       |
|                                    | <b>Fresh water sediment</b>   | 0,0499 mg/kg dwt  | -       |
|                                    | <b>Marine water sediment</b>  | 0,00499 mg/kg dwt | -       |
|                                    | <b>Soil</b>                   | 3 mg/kg dwt       | -       |

### 8.2 Exposure controls

**Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### Individual protection measures

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Use eye protection according to EN 166. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. Recommended: safety glasses with side-shields

#### Skin protection

There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals.

The breakthrough time must be greater than the end use time of the product.

The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.

Gloves should be replaced regularly and if there is any sign of damage to the glove material.

Always ensure that gloves are free from defects and that they are stored and used correctly.

The performance or effectiveness of the glove may be reduced by physical/chemical damage and poor maintenance. Barrier creams may help to protect the exposed areas of the skin but should not be applied once exposure has occurred.

## SECTION 8: Exposure controls/personal protection

- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. > 8 hours (breakthrough time): nitrile rubber (0.5mm) gloves.  
The recommendation for the type or types of glove to use when handling this product is based on information from the following source: EN374. The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: Wear overalls or long sleeved shirt. (EN 467)
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended: organic vapour (Type A) and particulate filter (EN 140) .
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### 9.1 Information on basic physical and chemical properties

- Physical state** : Liquid.
- Colour** : Not available.
- Odour** : Mild.
- Odour threshold** : Not available.
- Melting point/freezing point** : 0°C [Literature]
- Initial boiling point and boiling range** : >100°C (>212°F) [Literature]
- Flammability (solid, gas)** : Non-flammable in the presence of the following materials or conditions: open flames, sparks and static discharge, heat and shocks and mechanical impacts. Nonflammable, but will burn on prolonged exposure to flame or high temperature.
- Lower and upper explosion limit** : Not available.
- Flash point** : Closed cup: >100°C (>212°F) [Literature] [Product does not sustain combustion.]
- Auto-ignition temperature** : Not relevant due to nature of the product.
- Decomposition temperature** : Not available.
- pH** : 6 to 8 [Conc. (% w/w): 100%] [OECD 122]
- pH : Justification** : Not available.
- Viscosity** : Dynamic (room temperature): Not available.  
Kinematic (room temperature): Not available.  
Kinematic (40°C): Not available.
- Solubility(ies)** :

Concrete Sealer Dustproofers

SECTION 9: Physical and chemical properties

| Media                                   | Result                                                                                                                                                                   |

SECTION 10: Stability and reactivity

|                                         |                                                                                                        |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------|
| 10.1 Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
| 10.2 Chemical stability                 | : The product is stable.                                                                               |
| 10.3 Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| 10.4 Conditions to avoid                | : No specific data.                                                                                    |
| 10.5 Incompatible materials             | : No specific data.                                                                                    |
| 10.6 Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008  
Acute toxicity

| Product/ingredient name                                                                                              | Result                                                 | Value               |
|----------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|---------------------|
|  2-benzisothiazol-3(2H)-one (BIT) | Rat - Male - Oral - LD50                               | 490 mg/kg           |
|                                                                                                                      | Rat - Male, Female - Inhalation - LC50 Dusts and mists | 0,5 mg/l [4 hours]  |
|                                                                                                                      | Rat - Inhalation - LC50 Dusts and mists                | 0,11 mg/l [4 hours] |

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Concrete Sealer Dustproofers

SECTION 11: Toxicological information

Acute toxicity estimates

| Product/ingredient name            | Oral (mg/kg) | Dermal (mg/kg) | Inhalation (gases) (ppm) | Inhalation (vapours) (mg/l) | Inhalation (dusts and mists) (mg/l) |
|------------------------------------|--------------|----------------|--------------------------|-----------------------------|-------------------------------------|
| 1,2-benzisothiazol-3(2H)-one (BIT) | 450          | N/A            | N/A                      | N/A                         | 0,21                                |

Skin corrosion/irritation

Not available.

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Ingredient name

Conclusion/Summary

1,2-benzisothiazol-3(2H)-one (BIT)

Causes skin irritation.

Serious eye damage/eye irritation

Not available.

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Ingredient name

Conclusion/Summary

1,2-benzisothiazol-3(2H)-one (BIT)

Risk of serious damage to eyes.

Respiratory corrosion/irritation

Not available.

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Respiratory or skin sensitization

| Product/ingredient name            | Species - Route of exposure | Result              |
|------------------------------------|-----------------------------|---------------------|
| 1,2-benzisothiazol-3(2H)-one (BIT) | Guinea pig - skin           | Result: Sensitising |

Skin

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Respiratory

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Not available.

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

Carcinogenicity

Not available.

SECTION 11: Toxicological information

**Conclusion/Summary [Product]** : Based on available data, the classification criteria are not met.

Reproductive toxicity

Not available.

**Conclusion/Summary [Product]** : Based on available data, the classification criteria are not met.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on likely routes of exposure

Routes of entry anticipated: Oral, Inhalation, Eyes.  
Routes of entry not anticipated: Dermal.

Potential acute health effects

- Eye contact** : No known significant effects or critical hazards.
- Inhalation** : No known significant effects or critical hazards.
- Skin contact** : No known significant effects or critical hazards.
- Ingestion** : No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

- Eye contact** : No specific data.
- Inhalation** : No specific data.
- Skin contact** : No specific data.
- Ingestion** : No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure

- Potential immediate effects** : Not available.
- Potential delayed effects** : Not available.

Long term exposure

- Potential immediate effects** : Not available.
- Potential delayed effects** : Not available.

Potential chronic health effects

Not available.

**Conclusion/Summary [Product]** : Based on available data, the classification criteria are not met.

- General** : No known significant effects or critical hazards.
- Carcinogenicity** : No known significant effects or critical hazards.
- Mutagenicity** : No known significant effects or critical hazards.
- Reproductive toxicity** : No known significant effects or critical hazards.

11.2 Information on other hazards

Concrete Sealer Dustproofers

SECTION 11: Toxicological information

11.2.1 Endocrine disrupting properties

Not available.

Conclusion/Summary [Product] : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

11.2.2 Other information

Not available.

SECTION 12: Ecological information

12.1 Toxicity

| Product/ingredient name          | Result                                                | Species                                    |
|----------------------------------|-------------------------------------------------------|--------------------------------------------|
| 2-benzisothiazol-3(2H)-one (BIT) | Acute - EC50<br>0,067 mg/l [72 hours]                 | Algae                                      |
|                                  | Acute - EC50 - Fresh water<br>2,94 mg/l [48 hours]    | Daphnia spec. - Daphnia spec.              |
|                                  | Acute - EC50 - Marine water<br>0,9893 mg/l [96 hours] | Crustaceans                                |
|                                  | Chronic - NOEC<br>0,21 mg/l [28 days]                 | Fish - Rainbow trout (oncorhynchus mykiss) |
|                                  | Chronic - NOEC<br>1,2 mg/l [21 days]                  | Daphnia spec. - Daphnia spec.              |
|                                  | Chronic - NOEC<br>90 mg/l [20 days]                   | Aquatic plants                             |
|                                  | Acute - LC50<br>8 to 13 mg/l [96 hours]               | Fish                                       |
|                                  | Acute - LC50 - Fresh water<br>2,18 mg/l [96 hours]    | Fish - Rainbow trout (oncorhynchus mykiss) |
|                                  | Acute - EC50<br>0,11 mg/l [72 hours]                  | Algae - Algae                              |
|                                  | Chronic - NOEL<br>0,0403 mg/l [72 hours]              | Algae - Algae                              |
|                                  | Acute - LC50 - Fresh water<br>167 ppb [96 hours]      | Fish - Rainbow trout,donaldson trout       |
|                                  | Acute - EC50 - Fresh water<br>97 ppb [48 hours]       | Daphnia spec. - Water flea                 |

Conclusion/Summary [Product] : Based on available data, the classification criteria are not met.

12.2 Persistence and degradability

| Product/ingredient name          | Test | Result                  |
|----------------------------------|------|-------------------------|
| 2-benzisothiazol-3(2H)-one (BIT) | -    | >90% [1 days] - Readily |

Conclusion/Summary [Product] : According to EC criteria: Expected to be inherently biodegradable

|                                    |                   |            |                  |
|------------------------------------|-------------------|------------|------------------|
| Concrete Sealer Dustproofers       |                   |            |                  |
| SECTION 12: Ecological information |                   |            |                  |
| Product/ingredient name            | Aquatic half-life | Photolysis | Biodegradability |
| 1,2-benzisothiazol-3(2H)-one (BIT) | -                 | -          | Readily          |

12.3 Bioaccumulative potential

|                                    |                    |     |           |
|------------------------------------|--------------------|-----|-----------|
| Product/ingredient name            | LogP <sub>ow</sub> | BCF | Potential |
| 1,2-benzisothiazol-3(2H)-one (BIT) | 0,64               | -   | Low       |

12.4 Mobility in soil

Soil/water partition coefficient

|                                    |                    |                 |

| Product/ingredient name            | logK <sub>oc</sub> | K <sub>oc</sub> |
| 1,2-benzisothiazol-3(2H)-one (BIT) | 1,9                | 73,142          |

Results of PMT and vPvM assessment

|                                    |     |    |    |    |      |    |    |
|------------------------------------|-----|----|----|----|------|----|----|
| Product/ingredient name            | PMT | P  | M  | T  | vPvM | vP | vM |
| 1,2-benzisothiazol-3(2H)-one (BIT) | No  | No | No | No | No   | No | No |

Mobility : Non-volatile.

Conclusion/Summary : The product does not meet the criteria to be considered as a PMT or vPvM.

12.5 Results of PBT and vPvB assessment

Regulation (EC) No. 1907/2006 [REACH]

|                                    |     |     |     |    |      |     |     |
|------------------------------------|-----|-----|-----|----|------|-----|-----|
| Product/ingredient name            | PBT | P   | B   | T  | vPvB | vP  | vB  |
| 1,2-benzisothiazol-3(2H)-one (BIT) | No  | N/A | N/A | No | N/A  | N/A | N/A |

Regulation (EC) No. 1272/2008 [CLP]

|                                    |     |    |    |    |      |    |    |
|------------------------------------|-----|----|----|----|------|----|----|
| Product/ingredient name            | PBT | P  | B  | T  | vPvB | vP | vB |
| 1,2-benzisothiazol-3(2H)-one (BIT) | No  | No | No | No | No   | No | No |

Conclusion/Summary : The product does not meet the criteria to be considered as a PBT or vPvB.

Regulation (EC) No. 1272/2008 [CLP]

12.6 Endocrine disrupting properties

Not available.

Conclusion/Summary [Product] : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

12.7 Other adverse effects

No known significant effects or critical hazards.

Concrete Sealer Dustproofers

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance.

13.1 Waste treatment methods

Product

- Methods of disposal : Avoid release to the environment. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Dispose of contents and container in accordance with all local, regional, national and international regulations.
- Hazardous waste : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

European waste catalogue (EWC)

| Waste code | Waste designation                                              |
|------------|----------------------------------------------------------------|
| 08 01 12   | waste paint and varnish other than those mentioned in 08 01 11 |

- Special precautions : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

|                                 | ADR/RID        | ADN            | IMDG           | IATA           |
|---------------------------------|----------------|----------------|----------------|----------------|
| 14.1 UN number or ID number     | Not regulated. | Not regulated. | Not regulated. | Not regulated. |
| 14.2 UN proper shipping name    | -              | -              | -              | -              |
| 14.3 Transport hazard class(es) | -              | -              | -              | -              |
| 14.4 Packing group              | -              | -              | -              | -              |

Additional information ADR

Additional information ADN

Additional information IMDG

Additional information IATA

- 14.6 Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

- 14.7 Maritime transport in bulk according to IMO instruments : Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

No listed substance

Labelling : Not applicable.

Synthetic polymer microparticles - Designation 78

Generic identity of polymer(s) : Acrylate (co)-polymers

Total percentage of synthetic polymer microparticles : 7,7125%

Other EU regulations

- VOC : The provisions of Directive 2004/42/EC on VOC apply to this product. Refer to the product label and/or technical data sheet for further information.
- VOC for Ready-for-Use Mixture : IIA/i. One-pack performance coatings. EU limit value for this product : 140g/l (2010). This product contains a maximum of 10 g/l VOC.
- Industrial emissions (integrated pollution prevention and control) - Air : Not listed
- Industrial emissions (integrated pollution prevention and control) - Water : Not listed
- Explosive precursors : Not applicable.

Ozone depleting substances (EU 2024/590)

Not listed.

Prior Informed Consent (PIC) (649/2012/EC)

Not listed.

Persistent Organic Pollutants (850/2004/EC)

Not listed.

Seveso Directive

This product is not controlled under the Seveso Directive.

Ireland

Biocidal products regulation : Not applicable.

Concrete Sealer Dustproofers

**15.2 Chemical safety assessment** : This product contains substances for which Chemical Safety Assessments are still required.

SECTION 16: Other information

 Indicates information that has changed from previously issued version.

**Abbreviations and acronyms** : ATE = Acute Toxicity Estimate  
CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]  
DMEL = Derived Minimal Effect Level  
DNEL = Derived No Effect Level  
EUH statement = CLP-specific Hazard statement  
N/A = Not available  
PBT = Persistent, Bioaccumulative and Toxic  
PNEC = Predicted No Effect Concentration

Concrete Sealer Dustproofers

SECTION 16: Other information

RRN = REACH Registration Number  
SGG = Segregation Group  
vPvB = Very Persistent and Very Bioaccumulative

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification  | Justification |
|-----------------|---------------|
| Not classified. |               |

Notice to reader

**IMPORTANT NOTE:** The information in this Safety Data Sheet is based on the present state of knowledge and current legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications. The information contained in this data sheet (as may be amended from time to time) is not intended to be exhaustive and is presented in good faith and believed to be correct as of the date on which it is prepared. It is the user's responsibility to verify that this data sheet is current prior to using the product to which it relates. Persons using the information must make their own determinations as to the suitability of the relevant product for their purposes prior to use. Where those purposes are other than as specifically recommended in this safety data sheet, then the user uses the product at their own risk.

**MANUFACTURER'S DISCLAIMER:** the conditions, methods and factors affecting the handling, storage, application, use and disposal of the product are not under the control and knowledge of the manufacturer. Therefore the manufacturer does not assume responsibility for any adverse events which may occur in the handling, storage, application, use, misuse or disposal of the product and, so far as permitted by applicable law, the manufacturer expressly disclaims liability for any and all loss, damages and/or expenses arising out of or in any way connected to the storage, handling, use or disposal of the product. Safe handling, storage, use and disposal are the responsibility of the users. Users must comply with all applicable health and safety laws.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
